# Change Height of a Room

This Guide will teach you how to change the height of a room.

1. Click on the floor of the room.

2. Slide the "Match to Main Floor Height" slider to the left (to turn off).

3. Input the height of the room in the "Room Height" field.

Note: If you cannot increase the height of your space, you will need to adjust the "Main Floor" height. To do this:

4. Click on "Main Floor" from the navigation bar.

5. Click Configure.
