# Print a Floor Plan

This Guide will teach you how to download a floor plan to your computer for printing.

1. The print function prints the display you are currently viewing. Position the image as you want it to display in the printed file.

2. Click the "Camera Icon" located from the menu bar on the left.

3. Click the "Create" button under the Print or Save section.

4. Adjust the Print settings in the fields on the left (i.e., select the file type to be a PNG or JPEG file, make the floor plan in black and white instead of color, change the floor opacity and more).

5. Click the "Update Preview Image" to preview the print settings you have selected.

6. Click "Download to Print" button.
